Multifunction Printer

Xerox Phaser® 8860MFP Multifunction Printer

A new way to think
about colour

Colour by numbers

Xerox solid ink technology revolutionised office printing. For the first time, you could print brilliant colour without sacrificing the speed, ease-of-use and reliability you came to expect from black and white devices. Now, solid ink eliminates the one remaining barrier between you and everyday colour printing: Cost.

High performance colour, low black and white price

With the Phaser 8860MFP multifunction printer, you can get amazing colour for the same low cost as black and white.

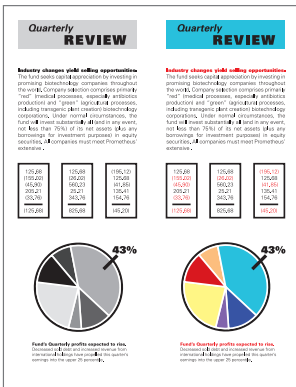

It's time to say hello to the power of colour in every office document you produce. And say goodbye to worrying about how much it costs. Colour printing. Black and white price. It's that simple. Finally.

But low-cost colour means nothing unless the colour you get consistently meets your highest expectations. And rest assured, the Phaser 8860MFP multifunction printer delivers colour output that's truly exceptional, page after page.

So rejoice, small to medium-size workgroups with high-volume print demands. There's never been a better opportunity to unleash your creativity and get the results you're after while optimising of your bottom-line document costs.

Go ahead, do your best work.
And make it colourful.

black and white colour

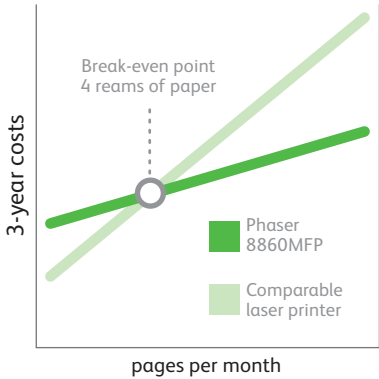

Same Low Price

If you could do all of your company's printing in attention-grabbing colour for the same low price as black and white, why wouldn't you?

Using colour in your business-critical documents is the easiest way to achieve the best results – more sales, better retention, higher response rates and fewer mistakes. The Phaser 8860MFP multifunction printer makes it easier and more affordable than ever.

Solid ink total cost of ownership (TCO) advantage over 3 years

The print volume advantage.

If your monthly print volume averages four reams of paper or more, the Phaser 8860MFP multifunction printer delivers a cost of colour that's by far the best deal going.

More colour possibilities. Xerox solid ink prints a wider range of colours than most colour laser devices. Count on solid ink technology to accurately print the "right" colour and the smoothest blends and gradients – even tricky mid-tones like sky and skin.

Enhanced image quality. For photo-quality colour, and when you really want to impress, choose 2400 FinePoint™ print resolution mode. The super-fast draft mode is perfect for everyday prints and proofs.

Print right the first time. True Adobe® PostScript® 3™ and automatic colour-enhancement tools ensure that colour-intensive documents print reliably and accurately.

Consistent colour. No other technology delivers such exceptionally consistent colour, print after print – important for long print jobs or multiple prints of the same page. Solid ink also prints consistently printer to printer. That means documents printed at the branch office look exactly as they do when printed at headquarters.

Professional-quality colour matching. When colour accuracy is a must, built-in PANTONE® spot-colour correction tables ensure quick and easy PANTONE colour matching. Get true renditions of important business colours – like your logo.

Award-winning technology. With more than 50 major awards since its introduction, Xerox solid ink is a clear favourite among industry experts.

It is easy being environmentally friendly

Welcome to the world of solid ink – a place where bright, vivid colour for the same low cost of black and white is just the beginning. It's where all of our colours – cyan, magenta, yellow and black – become environmentally friendly.

Be environmentally friendly with Xerox solid ink

And it's all made possible with Xerox solid ink, the office colour solution with a cartridge-free design and minimal packaging. That simple combination means less energy used during manufacturing, drastically reduced landfill waste, and less storage space for better transportation efficiency and far fewer delivery trucks on the road – saving you shipping costs while benefiting the environment.

Now, busy workgroups that use the Phaser 8860MFP multifunction printer for their important documents not only gain an edge in today's ultra-competitive business environment, they also get their best work done in a way that's less impactful on the natural environment.

So be environmentally friendly with Xerox solid ink – your easy, responsible, full-colour office document solution.

Think beyond the ink. The benefits of solid ink go beyond cost and colour quality.

Over the course of printing 192,000 pages, the waste generated by typical cartridge-based toner amounts to an astounding 204 kg Xerox solid ink, on the other hand, produces only 10.5 kg of waste – an amazing ratio of more than 20 to 1.

No-fuss drop-in loading.

Xerox solid ink sticks are engineered for maximum ease of use. Each colour has a unique shape, making it impossible to misload. And because solid ink can be replenished before the device runs out, there's no device downtime when replacing ink.

Solid ink is just that: solid. Unlike laser print cartridges, it's safe to handle and there's nothing to spill, leak or smudge on your clothes. It's the no-mess colour solution that's 100 per cent dust free.

One consumable:

Ink. That's it. No big, bulky print cartridges or fusers, fuser oil or imaging units found in a typical colour laser printer. The only other replaceable item is a maintenance roller, which lasts for tens of thousands of pages and only needs to be replaced a few times throughout the life of your device.

Efficient use of paper.

Standard features like automatic two-sided printing and N-up printing fit more output onto a single sheet, saving time, trees and money.

Recycled paper

welcome. With solid ink, there's no need for "special" recycled paper. Print on any recycled stock – or almost any media, full stop – and get vibrant, high-quality colour. Plus, solid ink printouts are completely recyclable.

Print more.

The solid ink imaging process is extremely efficient, producing nearly 100 per cent ink-to-page transfer during normal printing. Solid ink does not leave behind residual toner and developer excess that collect in the waste container after each print.

Save valuable space.

Solid ink packages are small enough to easily fit in your desk drawer. There's no more need to take up an entire cabinet with printer supplies.

The reliable, no-hassle people pleasers

Friends to both your bottom line and the environment, the Phaser 8860MFP multifunction printer also packs the performance and ease of use to satisfy the rigorous demands of busy workgroups.

Easy all the way around

Whether you need robust printing or the additional capabilities that come with a true multifunction powerhouse, these office devices are designed to make office life easier than ever. And with crowd-pleasing productivity as the benchmark, you're assured that every feature, function and design consideration exists to help your staff happily produce its best work.

And total ease-of-use goes hand-in-hand with real-world reliability, which is one more way the Phaser 8860MFP multifunction printer excels. Designed with a straightforward, virtually jam-free paper path, the devices contain far fewer moving parts, which means less room for failure and more smiles on the faces of those who demand reliable, everyday productivity.

Built for speed

These devices are built to keep up, answering the call with a super-fast print speed of up to 30 ppm for both black and white and colour.

Solid ink's colour-optimised architecture and a fast controller give you the most important advantage for typical office colour printing: A fast first-page-out time. As fast as six seconds, in fact.

Print more without interruption.

A 100-sheet tray for a wide range of custom media and sizes, plus a generous 525-sheet tray, come standard. Add one or two 525-sheet trays for a total capacity of 1,675 sheets and even more interruption-free productivity.

More power. A 750 MHz processor and 512 MB of memory (upgradeable to 1 GB) do some serious heavy lifting, making quick work of even the most intense projects. And these devices work hard for longer, with a monthly duty cycle of 120,000 pages – that’s 240 reams of paper!

Built smart. PrintingScout® technology monitors your print projects. If a potential issue arises, a helpful pop-up alert suggests a remedy. Plus, an internet support system provides fast help when you need it.

Intelligent ready. The devices monitor usage history and automatically warm up just before the first page of the day is anticipated.

Security first. Built-in security tools keep your data safe and sound. Secure Print holds hard-copy output until a PIN is entered, and Hard Drive Overwrite electronically “shreds” data after every job or on request.

All in one, one for all. With powerful printing, copying, scanning and faxing, the Phaser 8860MFP multifunction printer makes it easier for more people to get more work done. Plus, there’s no waiting because multiple functions can be accessed at the same time: scan while printing or receiving an inbound fax, and walkup users can interrupt a print job to make a copy.

Super-easy scanning. Now scanning is as easy as making a copy, with no extra steps needed. Quickly turn loose paper documents into ultraportable digital files. Organise, edit and distribute files with powerful onboard scanning tools. Scan files straight to your desktop or to a public or private folder.

		8860MFP/D
Speed		Up to 30 ppm colour / 30 ppm black and white
Duty Cycle		120,000 images / month
Paper Handling Paper input	standard	Tray 1: 100 sheets; Custom sizes: 76 x 127 mm to 216 x 356 mm Tray 2: 525 sheets; Selectable sizes: 140 x 216 mm to 216 x 356 mm
	optional	Tray 3: 525 sheets; Selectable sizes: 140 x 216 mm to 216 x 356 mm Tray 4: 525 sheets; Selectable sizes: 140 x 216 mm to 216 x 356 mm
Document handler		Duplex Automatic Document Feeder: 50 sheets
Paper output		250 sheets
Two-sided output		Standard
Copy First-page-out time		As fast as 15 seconds colour / 15 seconds black and white
Resolution (max)		600 x 600 dpi
Copy features		Book copying ¹ , Booklet creation ¹ , Collation, Covers, Image Centre, Image shift, N-up, Reduce / Enlarge, Repeat image, Colour Password Protection
Print First-page-out time		As fast as 6 seconds colour
Resolution (max)		Up to 2400 FinePoint™
Memory (std / max)		512 MB / 1 GB
Processor / PDL		750 MHz processor / True Adobe® PostScript® 3™, PCL® 5c emulation
Connectivity		10/100Base-TX Ethernet, USB 2.0
Print features		Custom-size pages, Xerox Installer, Intelligent Ready, Booklet printing ¹ , Smart Trays, Remote Printing, Job Accounting, Printer Neighbourhood, Run Black
Productivity kit (with Hard drive)		Personal/Personal Saved/Secure/Proof/Saved Print, (with Hard drive) Print With, Extended font/form storage, Collation, Hard Drive Overwrite
Scan Scan destinations		Scan to PC / Mac, Scan to TWAIN application, Scan to email via PC, Scan to desktop, Scan to Public / Private Folders
